Subject: FW: Full time status

Hi Linda,
FYI – Mai Tran in the Drug Lab is trying to convert a part-time position to full-time. I explained that there is no full time position into which she can transfer. I think it is appropriate that she raise this issue with the union for discussion with Mass State Police.

Subject: Full time status

Hi Mr. Dorant;

It was brought to my attention today that the recently posted Chemist II position for the drug lab is not going to be filled. I am still interested in becoming a full-time employee at the drug lab and I would like to know what steps I can take to make this happen. I had worked full-time in the drug lab from 1986-1990 and from then until now I have been part-time. I think that with the current status of the lab and the back log it would be a great help to have my work week converted to a full-time position.

Back in early April I spoke with Julie Nassif and Charles Salemi about switching my position with another co-worker that was interested in a part-time schedule; they both were okay with this switch. However, this switch wasn't possible for my co-worker at this time. (SEE EMAIL BELOW) The drug lab is down several positions at this time and I would only be looking to increase my hours by 18.75.

In addition I know that there is over-time money that has been slotted for the drug lab would it be possible for me to take advantage of some of these monies to work a full-time schedule?

Thank you,
Mai Tran

Hi Julie,

I wanted to let you know that I will not be able to switch positions with Mai at this time. I spoke with the daycare and it is not feasible to adjust my days/hours there as I have already reserved full time slots and they do not have any part time

slots available. In the future, this would be something that I would be interested in doing but for the time being it is unfortunately not going to work.

Thanks,

Kate Corbett
